

CHRIS KADLEC

(크리스 캐들렉)

By using my 3 1/2+ years of experience as a native English teacher in Korea and keeping in mind that all students learn in their own ways, I always strive to make the classroom an enjoyable atmosphere in which to learn by motivating students with topics and real-world situations that allow them to take interest in the English language. Growing up in a household of exchange students, I understand firsthand the difficulty of learning a new language and try to use that experience to be a better teacher to my students.

HOBBIES
