

Curriculum Vitae

JAC VAN BEEK

Motivational Letter

My name is Jacobus (Jack) van Beek and I graduated from the University of Stellenbosch attaining a degree in Visual Communication Design. During the course, projects with fixed deadlines had to be completed, enabling me to efficiently work well under pressure.

I believe that it is crucial to improve and work hard to keep on growing on a personal and professional level. I enjoy working hard and like to assign myself personal goals to keep me focused and motivated. I was an English Teacher in Gwangju during 2010.

I enjoyed teaching very much and fell in love with Korea and its people. I loved my students and was a kind and hardworking teacher. I miss Korea and miss being a teacher. That's why I would love to go back and teach once more.

To further enhance my skills as a teacher I have since done a 100 hour TEFL course and passed it with distinction.

Personal information
