Profile

My name is Zac Mckinster and I have been working since I turned 15. I have a strong work ethic and believe anything is possible as long as you stay focused. I am an asset to any team and plan on furthering my experience any way I can. I know if you choose me for this position you won't regret it; you will only wonder how I can work at the pace that I do.

Experience

Maintenance Supervisor, Creative Minds Learning Center 2008-Current

I have been employed at Creative Minds for the two years. This is where most of my strengths and skills have been learned. I started out on the maintenance crew for two centers and was quickly promoted and now oversee three preschools as the maintenance supervisor. My duties include; making lists, securing building maintenance, contracting as necessary for various jobs, and most importantly providing a safe environment for 160 students.

Crate&Barrel 2006 (Fall&Christmas Season)

Crate&Barrel was my first seasonal job where I gained customer service experience and excellent sales skills.

Education

Lakeridge High School — 4 year Diploma, 2008

I am currently enrolled at Mt. Hood Community College and plan obtaining my bachelors in business finance at Portland State University.

Skills

The skills I have acquired since I started working are more attributed to life experience than anything else. I am a conscientious person who likes to look at the bigger picture. I have a strong work ethic and never mind working overtime to complete a job if need be. I am also good with people and have always held myself to the highest standards. I am very moldable and always loyal to the company I work for.

References

Jacqueline Shanor #503-998-6978 (Creative Mind Business Owner) I have known Jacqueline for over 5 years now. She has been a role model to me, and very much a motherly figure in my life. I have learned many of my people skills from her, and know that I would not be where I am today with out the help of this wonderful woman. She has helped me to become more than I thought I could be, and made me realize that there is always room for self-improvement.
